Collaboration to simplify complex transport networks using routed optical networking enabling high degree of automation

California / New Delhi – March 16th, 2022: [Tech Mahindra](#), a leading provider of digital transformation, consulting, and business re-engineering services and solutions, has announced today that it has collaborated with Cisco, the worldwide leader in technology that powers the Internet, to drive the infrastructure modernization of optical transport networks with the introduction of Cisco routed optical networking. The collaboration aims to simplify the Internet transport networks by leveraging state-of-the-art optical and routing technologies to converge services over an IP Infrastructure enabling a high degree of automation.

The collaboration will empower service providers to reduce their operational expenses and their total cost of ownership. Tech Mahindra's vast and diversified experience in building IP based, software-driven end-to-end 5G networks combined with the Cisco's Routed Optical Networking solution, will enable an end-to-end value proposition for service providers to reduce the complexity in their networks.

Manish Mangal, Global Head of Business and 5G and Network

Services, Tech Mahindra, said, *“5G connectivity, network intelligence, and edge computing are unleashing a whole new world of opportunities such as the delivery of immersive experience using Metaverse, Augmented Reality/Virtual Reality (AR/VR), among others. The network infrastructure of the future will need to be even more agile and software-driven, to bring such possibilities into life. As a trusted transformation partner, our mission is to help service providers re-imagine the future of connectivity and accelerate 5G adoption. Through this collaboration with Cisco, Tech Mahindra will make Routed Optical Networking solutions smarter, simpler, and easy to deploy and operate for service providers.”*

Tech Mahindra is investing in both a routed optical networking lab at Bangalore, India and specialized services such as SDN-enabled transport, transport slice and segment routing, enabling customers to experience and operationalize the transformation of 5G transport infrastructure. This collaboration will enable service providers to merge IP and private-line services onto a single transport layer with standardized pluggable coherent optics.

Shaun McCarthy, Vice President, Worldwide Mass-Scale Infrastructure

Sales at Cisco, said, *“As service providers are modernizing their 5G networks to offer new services, there is a critical need for the infrastructure to be agile, flexible, and simple. With Tech Mahindra’s expertise in OSS/BSS and Cisco’s routed optical networking portfolio, we can help customers expedite the transformation of their network while providing significant cost savings”.*

As part of NXT.NOWTM framework, which aims to enhance ‘Human Centric Experience’, Tech Mahindra focuses on investing in emerging technologies and solutions that enable digital transformation and meet the evolving needs

of the customer.

About Tech Mahindra

Tech Mahindra offers innovative and customer-centric digital experiences, enabling enterprises, associates and society to Rise. We are a USD 5.1 billion organisation with 121,900+ professionals across 90 countries, helping 997 global customers, including Fortune 500 companies. We are focused on leveraging next-generation technologies, including 5G, Blockchain, Cybersecurity, Artificial Intelligence, and more, to enable end to end digital transformation for global customers. Tech Mahindra is one of the fastest-growing brands and amongst the top 15 IT service providers globally. Tech Mahindra has consistently emerged as a leader in sustainability and is recognised amongst the '2021 Global 100 Most sustainable corporations in the World' by Corporate Knights. With the NXT.NOW framework, Tech Mahindra aims to enhance 'Human Centric Experience' for our ecosystem and drive collaborative disruption with synergies from a robust portfolio of companies. We aim at delivering tomorrow's experiences today and believe that the 'Future is Now'.

We are part of the [Mahindra Group](#), founded in 1945, one of the largest and most admired multinational federation of companies with 260,000 employees in over 100 countries. It enjoys a leadership position in farm equipment, utility vehicles, information technology and financial services in India and is the world's largest tractor company by volume. It has a strong presence in renewable energy, agriculture, logistics, hospitality and real estate. The Mahindra Group has a clear focus on leading ESG globally, enabling rural prosperity and enhancing urban living, with a goal to drive positive change in the lives of communities and stakeholders to enable them to Rise.
